

Dear Parents,

We are so excited for our school year to begin!! Our teachers are ready to meet each one of their kids and start their educational journey!

This year, we are wanting to implement a slight change to our dismissal procedures. This change will help increase safety of your child as well as keep our dismissal line moving.

Each student will be given two cards with both their name and their teacher's name on the card. We are asking that the person who is picking up your child have the card with them when they walk up to pick up or have it on their dash if driving through the dismissal line. If you or the person picking up your child does not have the card, the teacher may ask you or the person picking up your child to come into the office and show their ID. This will ensure that the person picking up your child is on our Blue Hot Sheet. If you need an extra card, let us know.

We appreciate your support with this new procedure! Our number one goal is the safety of your child!

Thank you and looking forward to the school year of 2019-2020!!

Felicia Boyd
